Hey there!

I'm a Frontend Engineer focused on building clean, scalable, and user-focused web applications. Strong experience developing modern interfaces with React and TypeScript, with a strong attention to code quality, performance, and maintainable architecture.

Comfortable working in collaborative and agile environments, actively contributing through code reviews, technical discussions, and clear communication with designers, product teams, and other engineers. Known for being proactive, detail-oriented, and enthusiastic about solving problems and improving products.

Passionate about creating reusable components, well-structured UI systems, and reliable frontends, while maintaining a strong focus on user experience and team collaboration.

Work experience

Frontend Engineer

Capgemini SL | Spain | february 2025 – Currently

Frontend Engineer at Openbank.

Developed and maintained fintech products for different programs and countries using React, TypeScript, and styled-components, focusing on scalable and maintainable solutions.

Worked with microfrontend and hexagonal architecture, making sure applications could adapt to different deployment environments. Developed and maintained shared internal libraries used across multiple microfrontends.

Successfully integrated a third-party identity verification provider and contributed to improving development practices, reusable solutions, testing, and code quality within an agile team.

React | Typescript | Jest | Jira | Scrum | Vitest | Webpack | CI/CD | AI tools

Frontend Developer

Vehnet SL-Edinburgh April 2022 – May 2024

Developed and maintained web and mobile applications using React, React Native, and TypeScript, focusing on maintainable and reusable solutions.

Successfully contributed to the migration from AWS to Firebase, helping adapt and deploy applications to the new infrastructure. Developed and maintained shared internal libraries used across both web and mobile applications.

Worked closely with designers and backend teams, creating and implementing Figma designs and writing unit tests to ensure code quality and reliability.

React | React Native | TypeScript | Jest | Vite | Firebase | Google Cloud | Figma | Git

Frontend Web Developer

Advance digital experts SL-Las Palmas de Gran Canaria, Las Palmas province. July 2021 - April 2022

Built a frontend application from scratch for the e-mobility sector, processing vehicle telemetry to generate reports and statistics on performance and energy efficiency.

Worked closely with backend and design teams to develop new features and prepare product demos for potential customers. Followed Scrum practices and used Jira to plan and track development.

Focused on building reusable and maintainable UI components, supported by unit and component testing with Jest and Testing Library, and documented in Storybook.

React | TypeScript | JavaScript | Jest | Testing Library | styled-components | Storybook | Jira | Scrum

Fronted Web Developer

Freelancer - Las Palmas de Gran Canaria, Las Palmas province. February 2021 - July 2021

Developed web applications and landing pages for small businesses using React, adapting solutions to different client needs and projects.

Worked independently on complete web projects and collaborated with other freelance developers to build and improve web products.

React | TypeScript | JavaScript | Jest | HTML | CSS | styled-components

Education and formation

Vocational Education and Training in Web development

School of Industrial Organization - Las Palmas de Gran Canaria, Las Palmas province.
February 2021 - May 2021

Vocational Education and Training in Web development

International Polytechnic Center - Las Palmas de Gran Canaria, Las Palmas province.
January 2021 - February 2021

Vocational Education and Training in Web development

Euroinnova International Online Education - Granada, Granada province.
December 2020 - January 2021

Tourism Degree

University of Las Palmas de Gran Canaria - Las Palmas de Gran Canaria, Las Palmas province.
September 2013 - September 2018

Technical skills

- React
- TypeScript
- CSS
- HTML5
- Jira
- Scrum
- JavaScript
- React Native
- Jest
- Testing-library
- Webpack
- Vite
- Vitest
- Node.js
- Google cloud
- Firebase
- Github
- Figma
- CI/CD
